

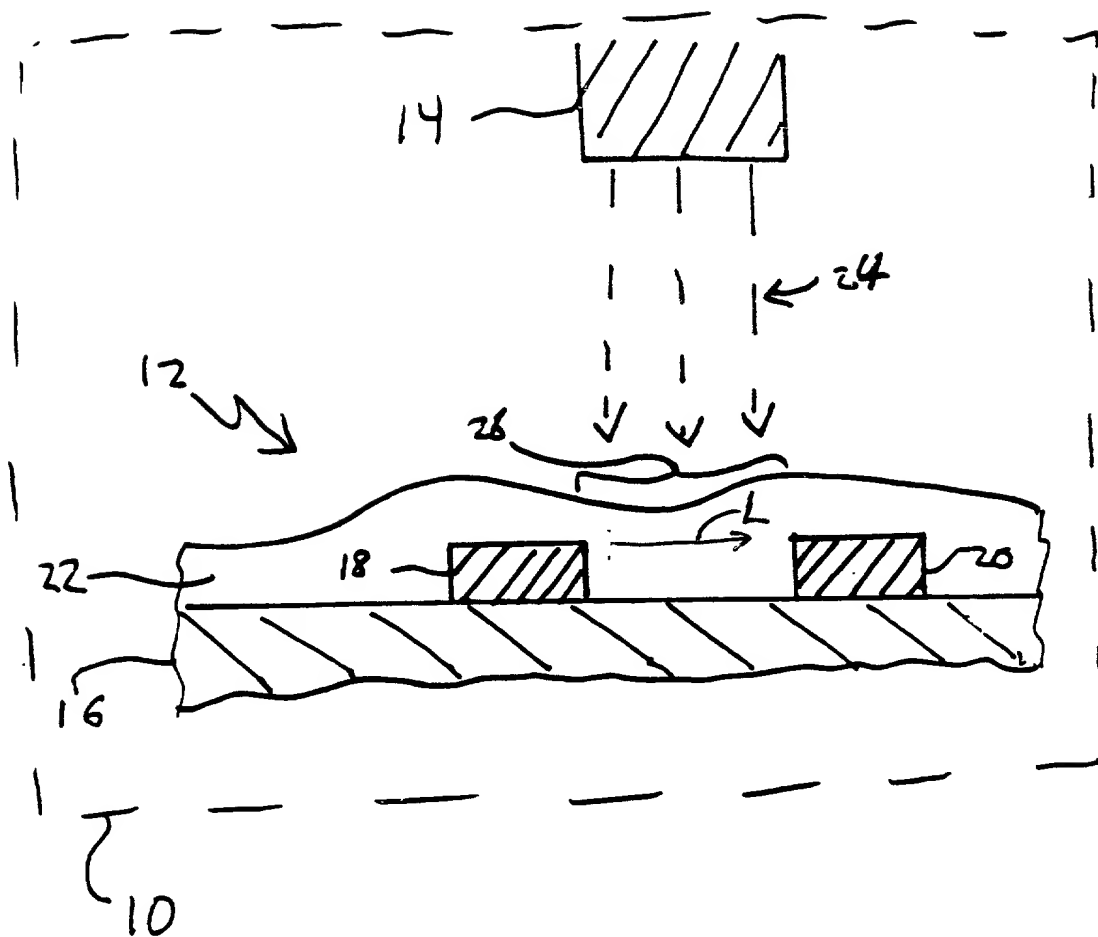

FIG. 1

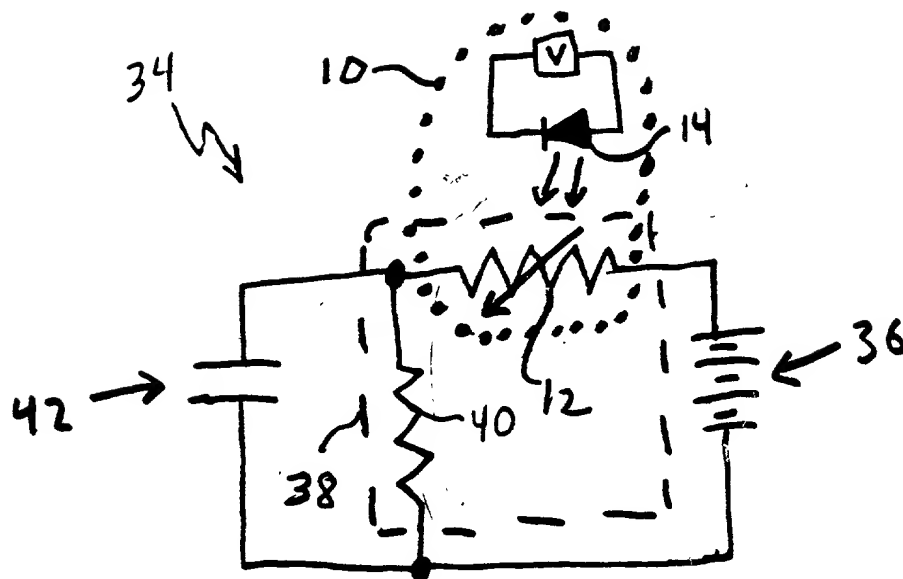

FIG. 2

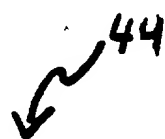

FIG. 3

Apply a voltage across an organic photosensitive switch

46

Modulate a light intensity incident on the photosensitive switch while applying the voltage there across.

48

A perspective view of a device assembly 50 mounted on a substrate 12. The assembly includes a component 16 with a wavy surface, a component 20 with a grid pattern, and various other parts labeled 14, 18, 22, 26, 40, 52, 54, 56, 58, and 60.
